13. Academic environment of the college

Feedback – The academic environment fostered by the institution was seen as being very good or excellent by a large majority of the respondents.

Report

Data was collected from **433** respondents and the raw data was presented at a meeting of the IQAC. Members of the IQAC discussed and argued in detail each and every point of the data and decided on the report unanimously. The fact that only 433 respondents answered the questionnaire over a period of 5 years was seen as an indication of the institution's lack of contact with the alumnus. It was decided to develop mechanisms whereby stronger and closer contacts with the pass-outs could be kept and the data thus collected updated on a regular basis. The need for a registered Alumni Association was urgent and the urgency was reflected in the deliberations of the members of the IQAC. However, the members were also extremely pleased by the response provided by the alumni. Their opinion regarding the facilities provided by the College and the relations of the different stakeholders within it made all the members of the institution proud. The alumni also provided us with suggestions for improvement under in each of the heads which drew for the College a blueprint for future progression.
