FROM THE PRINCIPAL'S DESK

The "Awareness Programme on Plight of Asian and African Elephants" to celebrate the World Elephant Day 2020 was jointly organized by Internal Quality Assurance Cell (IQAC) and Department of Zoology, Gushkara Mahavidyalaya and Durgapur Wildlife Information & Nature Guide Society (WINGS) on the occasion of World Elephant Day (12th August, 2020). The main event of this awareness programme was National Level e-poster competition on the theme "Conservation of Asian and African Elephant". Objective of this initiative was to promote awareness on conservation of these beautiful creatures among the students and learners. The focus of this event was to encourage the young students extend human behaviour with the elephant.

We all know the earth is for all creatives of God. We should try to practise this in our daily life and also try to inspire others in this regard. Thought provoking e-posters of the participant-learners helped us to make this programme successful.

I am thankful to Sri Taraknath Datta (Co-ordinator, IQAC) & Teaching staff of the Department of Zoology, Gushkara Mahavidyalaya for their active involvement in this academic venture.

Hope for the next event.

Message from the Coordinator of IQAC

Organisation of the awareness programme consisting of e-poster competition and screening of a documentary film on the plight of Asian and African elephants by Dr. Sukhendu Roy and his Zoology team is highly praiseworthy and a bold step in the right direction. It was indeed a unique way of celebrating 12 August- World Elephant Day. Participation of a large number of UG students proved that our students are enthusiastic enough for proper utilisation of their inherent creative skill even in this trying time of COVID 19 provided they are given appropriate platform.

MESSAGE FROM THE CONVENER

"We admire elephants in part because they demonstrate what we consider the finest human traits: empathy, self-awareness, and social intelligence. But the way we treat them puts on display the very worst of human behaviour." *Graydon Carter*

They are sharp. They are family oriented. They have great reminiscences. They are sentimental as well as sympathy and stunning self-awareness. They create complex, supportive societies much like our own. Yes!!!! I am talking about elephants? But unfortunately these lovely creatures are brutally killed every year for their ivory by voracious poachers. World Elephant Day is the perfect time to find out more about these amazing animals and what we can do to preserve and protect them. The motivation for the first World Elephant Day was to draw attention to the plight of these majestic creatures to populations and cultures all over the world. But, unfortunately, these magnificent creatures face multiple threats to their survival.

One major issue is the trading of ivory. Currently, the demand for ivory is the biggest in China. The price of ivory often exceeding the price of gold. The economics here work firmly against the humble elephant. Extreme poverty in Africa means that people can often compose a month's earnings or more from the ivory of a single animal, selling it on the international market. Habitat loss is also an important factor for the decrease of world's elephant population. Unfortunately, researchers believe that loss of habitat is the primary driver for the loss of elephants in the wild. A century ago, they numbered more than 12 million in the wild. Today, that figure may be as low as 400,000, with as many as 20,000 per year killed by poachers. Data suggest that the geographic range of elephants fell by around 30 percent between 2002 and 2011, with a similar loss of savannah for them to roam. The introduction of large parks throughout Africa has allowed habitat destruction to stabilize, but illegal poaching remains a dire threat. Circuses and tourism are also serious problems for the animals' well-being.

The poor condition of elephants can not only be attributed to poaching and habitat loss but also to the negligence of people about the threats this magnificent animal faces. I am quite sure that most people don't even recognize these threats -- which also include elephant rides. Elephant rides might look funny for humans but it is not any fun for the poor creature, not to mention the cruelty elephants have to endure from a young age just to carry you and/or your luggage. Each ride for them carries a risk of long-term physical injury. Since elephants have sharp bony protrusions instead of smooth and round spinal disks, the bony protrusions along with tissue protecting them are vulnerable to weight and pressure. Please remember that these elephants have been trained to do these things which include beating -- a LOT of beating. So, as a visitor/tourist/customer, the least you can do is say NO to these acts and help discourage their propagation because.

Elephant tourism is the fuel for elephant cruelty.

World Elephant Day is an opportunity for everyone to get together to find ways to reduce conflict between humans and elephants. The solution probably lies in an amalgamation of strategies.

It is an immense pleasure to host the "Awareness Programme on Plight of Asian and African Elephants" Jointly Organized by Internal Quality Assurance Cell (IQAC) and Department of Zoology Gushkara Mahavidyalaya and Durgapur Wildlife Information & Nature Guide Society (WINGS). The prime objective of the event e-poster competition was to encourage the students irrespective of their subject background. The recent critical situation of COVID 19 forced to think for such an event that can be organized by maintaining much needed social distances. So in this perspective the idea of e-poster competition was restricted only for the current UG students. I am delighted to announce that we received overwhelming response to students. I am thankful to all of them.

I extend my deep sense of gratitude to the Principal, Dr. Swapan Kumar Pan, Gushkara Mahavidyalaya and Patron of this event. I heart fully acknowledge our vice patron Sri Taraknath Dutta, IQAC Coordinator & Associate Professor, Department of Commerce, Gushkara Mahavidyalaya for his continuous support. I also thankful to our judges of the e-poster competition Dr. Manas Paramanik, Department of Animal Science, Kazi Najrul University; Dr. Asif Hossain, Department of Zoology, The University of Burdwan and Dr. Sandipan Talukdar (WBES), Assistant Professor, Department of Zoology, Gorubathan Govt College for their valuable suggestions. I also extend my deep sense of gratefulness to Dr. Anindita Das, Treasurer of "Society for Protecting Ophiofauna and Animal Rights (SPOAR) for enlighten us and screening of a pleasant documentary film on the plight of Asian and African elephants.

Last but not the list, I am thankful and want to congratulate joint conveners (Dr. Saurabh Sarkar & Dr. Nabyendu Rakshit), all the members (Mrs. Aparnita Nandi Roy, Miss. Poulomi Roy) & technical assistance (Sri Brojendra Nath Adhikari) for their continuous effort.

Message from the WINGS

It is our immense pleasure to take a part in the National level e-Poster competition on the theme “Conservation of Asian/African Elephants”, a collaboration initiative of IQAC and Department of Zoology, Gushkara Mahavidyalaya and Durgapur Wildlife Information and Nature Guide society (govt. Regd.) held on 12 August, 2020 on the occasion of World Elephant Day. The prime objective of this poster competition was to encourage the students irrespective of their subject background to motivate them in the field of Wildlife conservation and Environmental science. The current pandemic situation caused by contagious COVID-19 forced us to think of such an event which can be organized by maintaining social distancing. So in the perspective the idea of e-Poster competition helped us to fulfill our all objectives.

We are delighted to announce that we received overwhelming response from the students from all across the country in a very short duration. We are thankful to all of them. Their active participation and presentation through e-posters made this event a grand success.

We extend our deep sense of gratitude to the Principal and patron of this event Dr. Swapan Kumar Pan, who has been a great support to organize such event. We heart fully acknowledge Dr. Sukhendu Roy, Convener, Dept. of Zoology and Prof. Taraknath Datta, Coordinator of IQAC, Dept. of Commerce for their continuous support and encouragement. We are also thankful to all the organizing members for their kind anticipation and support to make this event a grand success.

We are looking forward to organize many more valuable collaborative initiatives in the field of nature and wildlife conservation in coming future to provide our future generation fresh air, clean water and sustainable earth.

INTRODUCTION

ABOUT GUSKARA & GUSHKARA MAHAVIDYALAYA

Guskara is a sprawling Municipal Town in the northern part of Burdwan Sadar Sub-Division. To the north of Guskara lies Santiniketan where poet Rabindra Nath Tagore spent most of his creative years. The district town of Burdwan is to the south of Guskara which is flanked on the east by Bhatar and Mongalkote and on the west by Jangalmahal. Kunur the major tributary of the river Ajay flows through the town. Archaeological findings have established that human habitation in the area surrounding the confluence of Ajay and Kunur dates back to at least three thousand years. Guskara is now an important railway station in the Burdwan – Sahibgunj loop line. It is situated at a distance of 135 km. from *Kolkata*.

Thanks to the missionary zeal of the eminent academician late Rakhahari Bakshi and generous support from the prominent citizens of the locality, Guskara Mahavidyalaya was founded on 9th August, 1965. The college campus, covering an area of 7.3 acres was donated by Guskara Purnananda Public Institution. It is situated close to the banks of the river Kunur.

Guskara, Galsi, Mongalkote, Ausgram and Bhatar constitute the catchments area of the college. By virtue of road and rail communications, a large number of students from such far-flung areas as Chittaranjan, Asansol, Durgapur Katwa, Kalna, Memari, Bolpur and Arambag block come to the college for pursuing their studies leading a Bachelor's degree in various disciplines.

The College is not only proud to boast of an attractive campus, but it has recently spruced itself up with technological advancements like a Wi-Fi campus, a state of the art Seminar Room, and Smart Classrooms. The students can now avail of a multi-gym for their physical fitness apart from participating in major sports like football and cricket. There are social outreach programs throughout the year which address such relevant issues like gender sensitization, equitable distribution of education facilities; college also encourages social work of prime importance throughout the year. The teachers, the students and the staff of the college together take the burden of upholding the prestige of the institution on a collective

basis. Like all other educational institutions, following the footsteps of our forefathers, this College in the modern era has been focusing on three basic missions: Teaching, Research and Community Service. Teaching or learning is the core mission. We educate the students up to the Graduate and Post Graduate standard keeping in view of the words of Swami Vivekananda: “EDUCATION IS THE MANIFESTATION OF THE PERFECTION ALREADY IN MAN”. Relentlessly the College puts effort to teach the students to dream before a dream comes true in reality. The College not only seeks to equip its young students for advancing and enriching their career prospects in order to face the competitive job-market, but also intends to build up the moral character of the students by the inculcation of treasured spiritual values so that they can keep a balance between tradition and modernity.

The professed objective of the College is to develop the students as rational, morally sound & complete individuals and as responsible citizens of modern India & the Global village. One cannot have exactly a schematic view of the future, but it is always beneficial to hope and likewise, we are always hopeful of an optimistic future. With this it is easy for the College to set afoot in the snow of uncertainties. Finally, we visualise that college will produce many more “Bengali-Indians”, who will turn our beloved motherland to a nation as dreamt by Rabindranath Tagore in his poem “Where the Mind is Without Fear”: “Where the clear stream of reason has not lost its way into the dreary desert sand of dead habit;/ Where the mind is led forward by thee into ever-widening thought and action/ Into that heaven of freedom, my Father, let my country awake.”

CONFERENCE OVERVIEW

It gives us immense pleasure to cordially introduce you to the International Conference on “Opportunities and Challenges in Biological Science and Sports Science” organised by Internal Quality Assurance Cell (IQAC), Gushkara Mahavidyalaya, dated March 5-6, 2023. The conference is intended to provide an academic platform for academicians and students. It also aims to provide an arena for the enthusiasts from India and abroad to interchange new knowledge, expertise, ideas and recent research findings. This International Conference has been designed to focus on various scientific trails covering major areas on Life Sciences & Sports Science; the exchange of ideas, thoughts, deliberations on part of eminent

scientists, research scholars are expected to address the real opportunities and challenges in relevant issues in the said fields. We did cheerfully welcome all to their dynamic interests.

CONFERENCE NOTE

Biological Science is always engaging to solve the problems of human health, habitat as well as life. This field of science is intimately related with various other major fields/subjects like Physics (Biophysics), Chemistry (Biochemistry), Statistics (Biostatistics), Technology (Biotechnology), Computer Science (Bioinformatics, Computational Biology), Medical Science (Parasitology, Medical Microbiology, Histology, Physiology), Human History / Anthropology (Evolutionary Biology), Environmental Science, Wildlife Conservation etc. On the other hand, Sports Science includes several interconnected subjects/fields like Nutrition, Health and Disease, Strength and Conditioning, Sports Psychology, Sports injury Prevention, Functional Anatomy, Performance Analysis, Human Movements and Motivation. The diversified opportunities as well as the major challenges pertaining both the themes will be addressed in this International Conference for the improvement of life and livelihood of human and Biosphere in post post-modern era.

FROM THE DESK OF THE TIC

"Tell me and I forget, teach me and I may remember, involve me and I learn". With the purpose of enkindling the lamp of awareness in the hearts of the learners and that through involving a high range of personalities from diverse fields I have accepted the proposal of International Conference. I am thankful to the staff of GM for their whole-hearted support to make the conference a grand success. Moreover, I express my sincere wish in this regard that our Mahavidyalaya would become a breathing ground of more such academic pursuits is near future.

FROM THE DESK OF IQAC

We are happy to inform that the Internal Quality Assurance Cell (IQAC) of Gushkara Mahavidyalaya has organized an International Conference entitled, "Opportunities and

Challenges in Biological Science and Sports Science” which was held on 5th and 6th March, 2023 in Gushkara Mahavidyalaya, Guskara, Purba Bardhaman.

The conference was designed to cover a wide range of topics in Biological Science and Sports Science. Both these fields are fast developing in contemporary times globally. After a spell of about two years during which the pandemic covid-19 swept over the planet, we are indeed delighted to organize such an International conference covering Biological science, Chemical science and Technology that have played a significant role in protecting humankind from the dreadful disease during the pandemic.

The Abstract Book (heart of the conference) contains eighty abstracts received for presentation in the above mentioned conference. Paper presentation were in both oral and poster mode. The abstracts of the keynote presentation and that of the six invited lectures are also included in the Abstract Book. We are fortunate to have four International (Invited) speakers from Bangladesh and Two renounced speakers from India.

Faculties, Scientists, Research Scholars and students have addressed various topics covering the fields of Zoology, Botany, Biochemistry, Chemistry, Physics, Geography, Physical Education and Social Science as the International conference has aimed to provide a common platform to the researchers from different allied fields for sharing of knowledge, interaction, discussion and exchanges of the current research updates.

The International conference has been organized in a short period of time. Publication of the Abstract Book at the time of the International Conference is a tough and challenging job. I would like to thank Dr. Saurabh Sarkar, convener of the conference, for taking the job of timely publication of the Abstract Book. With whole hearted cooperation from all participants, this International conference has attained a grand success.
